NetScreen Engineering notes for ScreenOS special release
5.1.0r4g

Product(s): NS-204, NS-208, NS-5000MGT1, NS-500, NS-25, NS-50, NS-5GT,
NS-5XT, NS-HSC

Version: Engineering release 5.1.0r4g

Document version: V1

Date: 12-27-06

Note: This Engineering Note is an addendum to the ScreenOS 5.1.0r4 Release Notes. Additionally, this version of ScreenOS is based in ScreenOS 5.1.0r4f and may only be available until the next public mainline release which will contain these fixes. The notes below do not contain all included fixes, known issues and other information available in the mainline release notes. Therefore it should be used as an addendum to the current 5.1.0r4 release notes and previous engineering notes.

1. Addressed issue(s) in Special Engineering release 5.1.0r4g

Bug ID**Description**

NSCos66650, NSCos66804 Update internal Daylight Savings Time (DST) tables for new USA 2007 schedule.
